

Go handmade

quality design in a unique style

Made with love

DIY universe
- for you, who crochet bags and baskets

Welcome to Go handmade

Handmade artwork - it is nice to unfold and use the hands to be creative. At the same time, creativity is also meditation since one concentrates very intensely on the projects, forgetting the world around us. The best wellness the body and the soul will ever know.

Fortunately, the creative crochet and knit trend isn't limited to age as it attracts young and old alike. The joys of handcrafting are various - it's fun, it relaxes, it develops and last but not least, handcrafted items also bring joy to those being the lucky recipients of such final products. For example, when you are invited to dinner at some friends' home and you bring a present in the form of a small basket, which required a lot of hours to crochet. A project filled with love and passion for the process, but certainly also for the recipient whom you want to gift something quite unique.

Products with a history

At Go handmade we manufacture all items from scratch. It is crucial for us to know where our products come from - we want to know their history - and I am feeling personally very much attracted to the crafting procedure and the ancient techniques, which are often still behind these items.

Fantastic people have been specializing and are proud to share their knowledge and their modern ways of working their art. I have myself visited most of our production locations and talked to all of the people I could. The photos we show in our catalog are stemming of my numerous visits to the production locations, pictures I took myself on site - a great pleasure for me.

Hanne Tolberg

"Mirror, mirror on the wall

**– WHO IS THE FAIREST
OF THEM ALL!"**

Each handmade item shines with its own beauty, maybe not always perfect, but it doesn't matter, it is handmade and has been crocheted or knitted with the warmth of the heart.

The wonderful places on the Flensburg Fjord offer me very special nature experiences, and it is here where I very often get my inspiration for the picture taking.

It is time

TO DELVE IN

Forget about the hectic every day life for a while and immerse yourself into a crocheted basket project. Beautiful colour options and numerous small details contribute to create a great atmosphere at home.

Crocheted in Cosy

A new favourite

IS BORN

They are called Bucket Bag and this name has been adopted in many languages as the nickname for this design. The cord ensures a good and practical way to close the bag, and with the flap, the look can be even more professional.

The bag is crocheted in Cosy

ALWAYS WITH A TWIST

Go handmade's visions and dreams always have had an eye for details. The accessories for all the fantastic items that we produce with our knitting and crochet need to be stylish and of a quality we are proud of.

” Grandmother is really great at adding that last finish to all seams, which she achieves using a small fantastic pair of scissors cutting like a dream. I am convinced she loves it.

Quality

AND GOOD CRAFTSMANSHIP

Today, Ms Hong is the owner of the family business where Go handmade's bags and basket parts are manufactured. A proud owner who has loved to learn from early childhood on. Her Father's craftsman traditions taught her, but she also experiments with new possibilities to get the job done and to coach her team of a really talented colleagues.

Ms Hong masters herself all procedures of the business for every single item - it is a matter of honour for her to be able to do everything and for example, sew the perfect (flawless) bag strap.

Many of our items require sewing - good enough with a sewing machine, however it is the hands that do the biggest part of the work. Big respect should be paid here. It is a special pleasure to see that there are also jobs for elderly grandmothers.

” The crocheted Rib Stitch bag is very popular, and we think many enjoy it very much all over the world. The pattern is easy and very suitable for beginners.

Crocheted in Cosy

Crocheted in Bohème Velvet "double"

SNAP & MAGNETIC BUTTONS

If you wish that your bag can be closed - chose between exterior or interior closing system. Both types of straps are already provided with holes so they can easily be sewn onto the bag.

Crocheted in Cosy

Straps, PU leather

” Add something beautiful to your project - the 18 and 22 cm long straps can either be sewn onto the bag or affixed with screw rivets.

Crocheted in Happy Chunky "double"

The cute big Teddy basket is crocheted onto a D35 cm base, and a 22 cm straps has been mounted.

Crocheted in Cosy

” Square crocheted baskets, also with crocheted bases, lined with felt. 22 cm straps are mounted with screwed rivets.

Straps, PU leather

” The small straps are the final touch for the finish of your projects. They can either be sewn on or be attached with our screw rivets.

The straps can be used in various ways. The classic way would be to attach the loop horizontally to the project, for example a basket or a bag - however they can as well be folded over the edge to give yet another exciting finish.

Metal buckle & Lobster lock

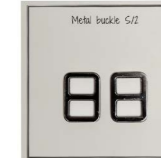

” It is Mr. He’s touch, his eyes and finger feel that allow parts to be moulded, sanded and polished to perfection.

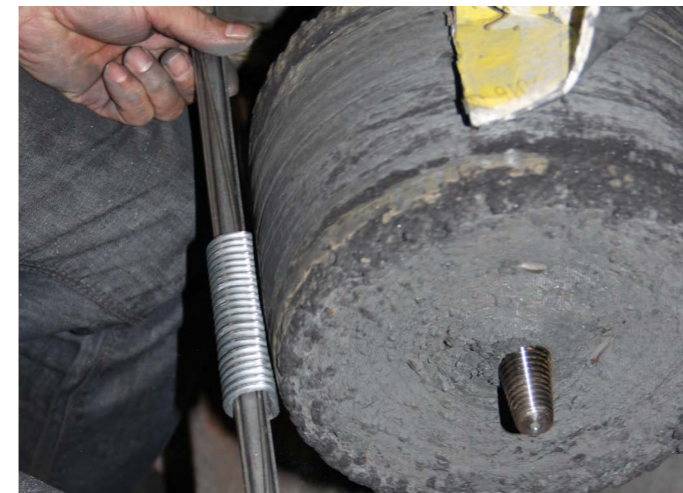

Proudfness and PRECISION

The small series of photos and this story are about Mr. He and his craftsmanship - his instinct for the little details of our metal parts. A niche in craftsmanship that only very few master at high level. Couple years ago, I visited Mr. He in his workshop for the first time. I was deeply impressed to see how big - in the very meaning of the word - the handicraft behind it all is and how many operational phases it takes to create and finish a simple small D-Ring.

Screw rivets, Screwdriver & Rivet support

It is with pride that we present our small collection of screw rivets and rivet supports to enable everyone to optimally assemble their bag and basket handles.

We have received requests from our customers who were a bit frustrated because they couldn't affix regular rivets in a way that handles and yarn would stay attached together.

Traditional rivets require an air gun to get the assembly to work out, but who has one handy! It is said that good advice is known to be dear, however with a bit of thinking the solution is obvious - it has of course to be a rivet that can be screwed, in fact with a tool to be found in a kitchen drawer, but with the small investment in a miniature screwdriver it becomes perfect.

The screw rivets can all be mounted, and our rivet supports ensure that the assembly stays in place without going through the crochet or knit fabric, which means everybody can mount their handles and straps in a solid way.

A tribute to the very craftsmanship BEHIND THE DESIGN

Our patterns are the foundation of our collection, and big thank you to all the clever hands and heads who worked with passion at each and every single design and pattern. You are all our heroes.
